

"A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away"

Antoine de Saint-Exupery

eEXLIBRIS Social DRM done right

Maximun security with speed

We did the heavy lifting so you don't need to. eEXLIBRIS brings social drm to your digital books in a fast, secure and convenient way.

The details of purchasing events are encoded securely into the epub file. We use several different layers of security measures that are practically impossible to reverse engineer. For obvious reasons we can't tell the details. We can offer seamless integration and instant downloading experience for the user.

Irresistible fun

For centuries have beautifully crafted exlibris enhanced reading experience and some thoughtful lines of hand written text add personalized touch to the book.

eEXLIBRIS bring these two essential functionalities back to the digital books. We can make social watermarking fun and desirable.

The digital EXLIBRIS and INSCRIPTION are optional features and can be added to every eEXLIBRIS installation when you want to give your customers a little bit more.

Traceability to the latest detail

In the unfortunate case that some illegal copies are met in the cyberspace we can easily track and trace the ebook to the source. The decoding of the ebook will be done in our high security enviroment. We will analyze the epub file and deliver the purchasing information in secure way for your authorized contact person.

Intelligent security

You can easily reach us by contacting Joni Nisula (joni.nisula@gracevoice.fi, +358 50 306 3550). We can help you to protect your intellectual property rights and achieve flawless usability in every ereading device.

eEXLIBRIS - intelligent property right management done right. Let's put some fun in the game.
